Insider Study Tips for the PreCalculus Quiz, Fall 2009

1. Study in groups, ask questions, help each other.

2. Study all that was gone over on Sunday. (Some very similar problems will be on the quiz)

3. Study the quiz below from last year (also at http://calculus.math.rpi.edu/rsc/) (Some of the problems will have similar counterparts on the quiz this year.)

4. Try to look at as many of the problems in Ready...Set..Calculus (at http://calculus.math.rpi.edu/rsc/) as you can. But if you only have time to look at one section of the book, try to learn how to do the problems in the “Graph Recognition” section. (It can get you points on the quiz.)

5. Learn the trigonometric identities on page 44 of Ready...Set...Calculus. (They can help).
